or check out "FAQ" on the ordering website.

For mobile orders  
scan and enter PW

# Lights...Camera...*Action!*

## *Dressing the Part*

Choosing an outfit for school pictures is really a matter of personal taste. However, consider choosing colors that compliment the background color rather than contrasting with it. The right clothing colors will bring attention to the face rather than the clothing.

Solid colors in medium to dark tones photograph best. Avoid large patterns and all-white or pastel outfits. These colors draw attention away from the most important part of the portrait...**the Star!**

*All students will be photographed for school records, so please dress appropriately.*
