NJSLA-S Registration Export

Permission: *Reports - Government - State*

This export can be used to submit registration data for the NJSLA-Science test directly to Pearson. The export will populate the fields defined in the NJSLA-S Student Registration/Personal Needs Profile Field Definitions handbook. For further instructions and training manuals, go to the Pearson Access Next site for the state of NJ. http://nj.pearsonaccessnext.com.

> **WARNING:** This export will produce a Pearson registration file that will, when imported to Pearson, overwrite any data that has already been submitted to Pearson.
>
> **NOTE:** The Optional State Data Fields may contain date sensitive values and will be overwritten when imported to Pearson. It is strongly recommended that you keep a copy of your district's original NJSLA-S registration export PRIOR to importing another registration file.
>
> ☑ I understand this warning and agree to keep a copy of the original NJSLA-S registration export.

Get Export

1. Prior to running the export - please review the available filters. Students will populate to the export based on the filter choices.

2. **State ID Filter** - Select Students with a State ID or All Students. Selecting *All Students* allows the district to register new students prior to submitting to NJ SMART for a SID number.
3. **Replace NJ SMART Test Codes with Pearson Test Codes** - This is a temporary solution to accommodate the new test codes that Pearson is expecting that are not currently accepted for the NJ SMART State Assessment submission.
4. **Use Registration Groups** - If Yes is selected, an additional filter will display to select the **Registration Group**. Registration Groups are maintained by going to *Government>State/Federal>Pearson Maintenance>NJSLA Registration Groups.*
5. All fields that are blank in the export will be imported blank to Pearson and can be manually edited on the Pearson website.
6. Read the **WARNING**. Check the box and click **Get Export**.
7. Submit the.njslaregistration.csv file to Pearson.
