# TRADE/CAREER FAIR & CCM INSTANT DECISION DAY

Last week, we hosted a Trade/Career Fair with great success! We welcomed 21 vendors who presented to approximately 75 students.

The vendors included representatives from local industries, trade schools, and local/state agencies such as Police, Corrections, and EMT services

Looking ahead, we plan to host two fairs next year:

Fall: Targeted for senior students

Spring: Open to all students

## CCM INSTANT DECISION DAY

In addition, back in February, we held an Instant Decision Day in collaboration with CCM. We scheduled 39 seniors—students who either had not yet applied to college or had incomplete applications—to meet with CCM counselors. During these sessions, students received support in completing their applications and were either:

- Counseled toward completion
- Admitted on the spot
- Or both admitted and registered

## EXPLORING COLLEGE OPTIONS

Exploring College Options is a special informational program sponsored by the undergraduate admissions offices of five of the country's leading universities: Duke University, Georgetown University, Harvard University, the University of Pennsylvania, and Stanford University. Representatives from each university will present information about their institution, discuss the application process, and answer questions on how to put together a strong and reflective application. Each program will end with breakout sessions where representatives will answer questions about their specific school and the application process. We are offering both in-person and virtual programs, with each program featuring the same content.

## *Academic* **SUPPORT**

There are several ways a student can obtain extra academic support. Students are encouraged to seek extra support if needed. Opportunities for extra support include:

- The student making an appointment with the teacher to meet for individualized help
- Joining in on HomeWork Club where students can work in a structured space or access the Peer Tutors available (Tuesdays, Wednesdays, Thursdays after school in the library 2:30-3:45 pm whenever late buses are running)
- Receiving math help at the Math Center
- And finally, talking with the School Counselor about what may be interfering with one's academic success. We are happy to help!
