- [Data Science & Analytics](#)
- [Robotics](#)
- [Cybersecurity](#)
- [Advanced Manufacturing](#)

Exploring College Options is a special informational program sponsored by the undergraduate admissions offices of five of the country's leading universities: [Duke University](#), [Georgetown University](#), [Harvard University](#), the [University of Pennsylvania](#), and [Stanford University](#).

Representatives from each university will present information about their institution, discuss the application process, and answer questions on how to put together a strong and reflective application. Each program will end with breakout sessions where representatives will answer questions about their specific school and the application process. We are offering both in-person and virtual programs, with each program featuring the same content.

Explore the link below for virtual programs this weekend

#### **October 23rd Wednesday**

10:15am until 11:00am

Auxiliary Gym

**The 2024-25 Free Application for Federal Student Aid (FAFSA) is  
Now Available**

**[How To Submit the 2024–25 FAFSA® Form if Your Parent  
Contributor\(s\) Doesn't Have an SSN](#)**

# FAFSA Application

Due to federal processing delays this year, HESAA (and colleges/universities) will not receive students' data for several more weeks. This will directly impact our work here at HESAA in processing state aid, but please be assured that we are monitoring the situation continuously and are prepared to load student award eligibility into NJFAMS as quickly as possible upon receipt of this data.

Please note that NJ Dreamers will be able to access the NJ Alternative Financial Aid Application by the end of January. This application will again be available in NJFAMS.

To help support students and their families, HESAA has expanded our calendar of free webinars to support participants in understanding and completing the application process.

There are several ways a student can obtain extra academic support. Students are encouraged to seek extra support if needed. Opportunities for extra support include:

- The student making an appointment with the teacher to meet for individualized help
- Joining in on HomeWork Club where students can work in a structured space or access the Peer Tutors available (Tuesdays, Wednesdays, Thursdays after school in the library 2:30-3:45 pm whenever late buses are running)
- Receiving math help at the Math Center And finally, talking with the School Counselor about what may be interfering with one's academic success. We are happy to help!

The Counseling Department communicates with their students in a variety of ways. One such way is through Google Classroom. Each graduating class has their own Google Classroom set up and it is where students can find important information pertaining to their graduating class. Examples of what can be found in the Google Classroom, depending on grade level relevancy, includes: College and Career search information, scholarship information, where to go for extra support, enrichment opportunities, upcoming presentations, important deadlines, etc. We encourage students to check in to their Google Classroom throughout the year for updates and ask that you encourage them to as well.
