

Why GoGuardian?

2 Key Features

1. GoGuardian allows our teachers to observe student work as it is being done and intervene with support and redirection as needed.
 - a. Teachers may initiate a chat session with a student to offer support
 - b. Teachers can close student tabs to keep them focused on the task at hand
 - c. Teachers can open student tabs to get them where they need to be quickly
 - d. Teachers can create a customized filter to keep students focused on key areas
 - e. Teachers can see students screens to get a clear idea of who is on task and who is not
2. GoGuardian searches traffic for keywords and phrases that could indicate trouble for our student's well being.
 - a. When students are not in a GoGuardian Teacher session student activity is software monitored and restricted. Content that will cause problems include:
 - i. Mentions of violence
 - ii. Searches for explicit content
3. GoGuardian Monitors 24/7 whenever you are logged into a device with your Runnemed Account
