March 8, 2022

Dear Parents,

On March 1, 2022, we started our third cycle of interventions for the 2021-2022 school year. We are currently supporting over 90 students within this model which includes targeted interventions for reading, writing, math, behavior, and fine motor skills. We continue to use the most current data to drive instruction. Our intervention specialists are working closely with the classroom teachers to assist our students in any way they can. If you feel that your child needs additional support, please reach out to your child's teacher at any time.

Listed below is our intervention team:
