June 16, 2026

Dear Volz Families,

We want to inform you about an upcoming school improvement project that will temporarily change how you interact with our main office.

Starting on June 22, 2026 we will begin a major construction project to upgrade our facilities. While these improvements are incredibly exciting for our school's future, the construction zone will directly affect physical access to the main office and our physical filing systems for the next 6-8 weeks.

Here is what you need to know to navigate these changes smoothly:

- The primary entrance to the main office will be completely closed to ensure everyone's safety. Please use the entrance by the gym or the drop box if you need to drop anything off.
- Because a portion of our main office administrative area falls within the construction zone, our physical filing cabinets and standard printing/scanning hubs will be difficult or impossible to access safely at certain times.

We completely understand that construction is disruptive, and we sincerely appreciate your patience and flexibility as we work to make our school a better place for everyone.

If you have an immediate accessibility concern or need to arrange a specific accommodation prior to visiting, please reach out to us directly so we can assist you.

Thank you,

Steve Pili

Principal
